Access and Sign on to Leepfrog system:

You can access the Leepfrog curriculum system from on-campus, through UNI remote access, or off-campus.

1. Go to https://nextcatalog.uni.edu [this is the home page for the “nextcatalog” – you will not be able to do edits here – you will only be able to do edits on “courseadmin” (for courses) and “programadmin” (for programs) as noted below]
2. Enter your CATID and password
3. Choose OK
4. You will have access to propose edits to courses and programs through the following navigations – you can go directly to these following navigations and enter CATID and password instead of https://nextcatalog.uni.edu to avoid an extra step.

Navigation for Courses (/courseadmin)

Go to https://nextcatalog.uni.edu/courseadmin

Within this navigation you will have the options to edit, add, or drop (deactivate) a course.

Navigation for Programs (/programadmin)

Go to https://nextcatalog.uni.edu/programadmin

Within this navigation you will have the options to edit, add, or drop (deactivate) a major, minor, program certificate. (If you want to edit, add, or drop an emphasis within an existing major or minor, this would be done as an “edit” of the program.)

Note: If you will be adding a major, minor, or program certificate, please contact Cheryl Nedrow (Provost Office) or Marissa Timmerman (Office of the Registrar) before proceeding. If a new major is being proposed, there is a required pre-approval process and Provost Office needs to be aware of this. For any new program (major/minor/certificate), Marissa Timmerman will need to set up a new program code in Leepfrog curriculum system so you will have that program code available when entering program into Leepfrog.
